

Young Pitcher's

Creativity for a connected Africa

DURATION:

60' SECONDS

TITLE:

Rooted in Creativity

SFX:

Gentle African melodies with drums.

Narrator:

Africa, our motherland, our home.

These vast lands where the rhythmic beats of our hearts, vibrates in our souls,

Where the wind blows, as it whispers stories that echoes.

Stories of our creativity that flows like the Nile, unconfined.

Our shared heritage. Our culture, diverse, yet intertwined.

From the summit of the Kilimanjaro to the planes of the Sahara

Our ancestral history lingers on in these vast lands we call ours.

And beyond our borders, the rhythm beats on

In the hearts of our daughters and our sons.

Though scattered far and wide, their roots still run deep

Even in strange lands where they try to find their feet

And like the starlit sky, you shine bright for all to see

The pride and greatness of Africa in a world so keen.

DURATION:

60' SECONDS

TITLE:

Rooted in Creativity

Narrator:

Through the maze of time, we'll find our way

Together, come what may

For in our differences, lies our might

And just like our shared rhythm beats in our hearts

Let's dance together as one, as the wind whispers

Melodies of our pride and stories about our home, our motherland, Africa.

Rooted in creativity.
